Metagenomic Analysis

Characterization of Oral Cavities Samples

TABLE OF CONTENTS

01

INTRODUCTION

The role of metagenomic in oral cavity diseases

02

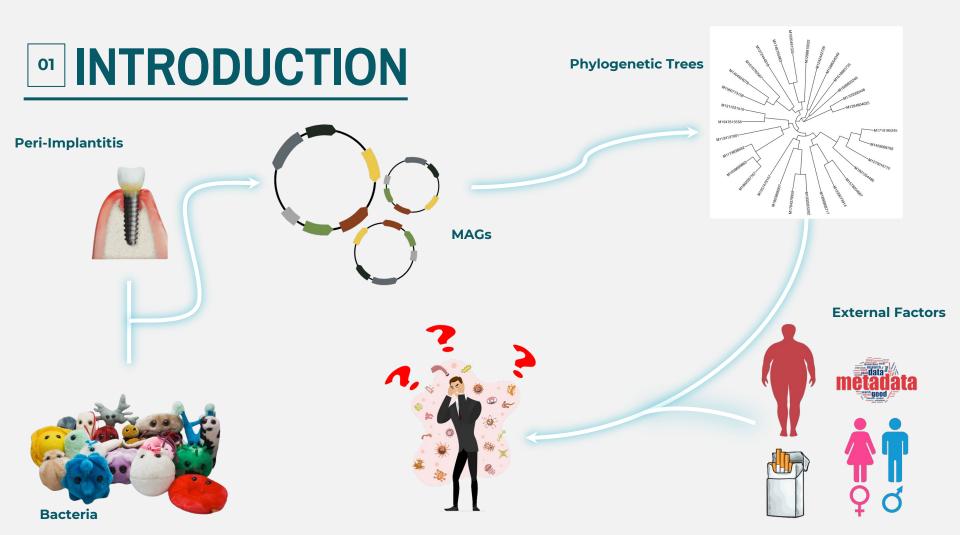

METHODS & RESULTS

Graph and data review

03

CONCLUSION

Critical discussion of the results

02 METHODS & RESULTS

PhyloPhlAn

Genomic insights

unknown element

within the Bacteroidota phylum

Quality Assessment

HQ MAGs

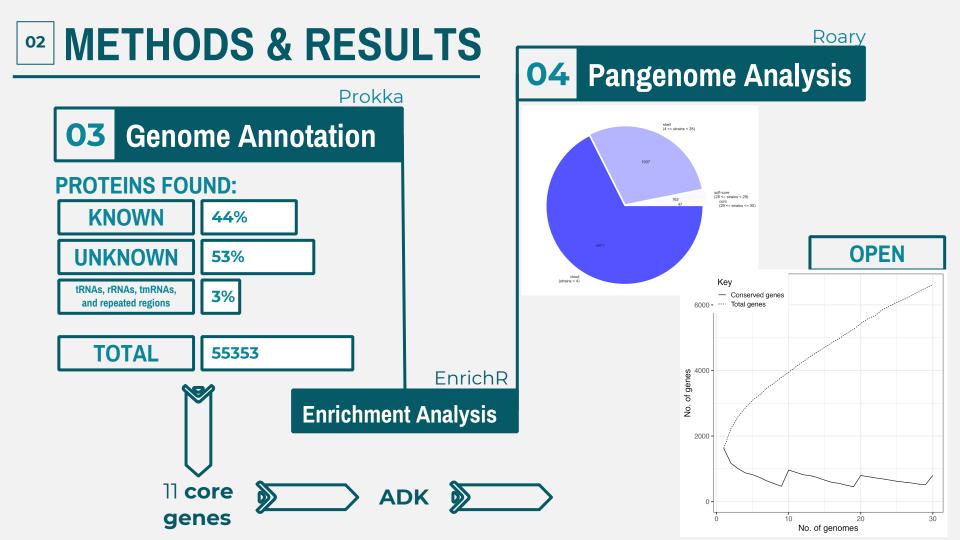

87%

1%

CheckM

Completeness

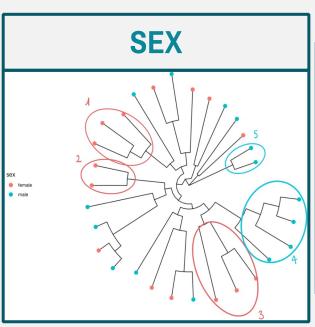

Contamination

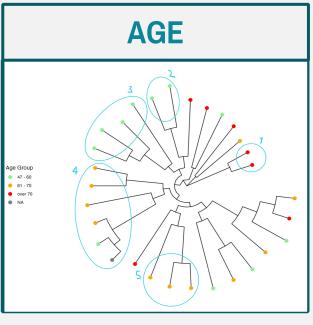

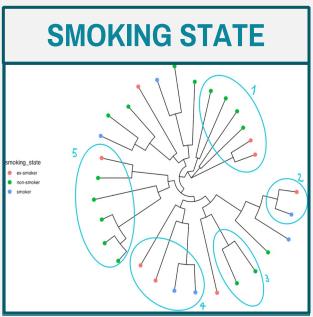

05

Phylogenetic Analysis with Host Metadata

Possible correlations between certain microbial strains and host characteristics

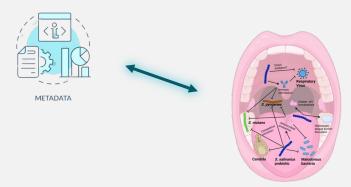

03 CONCLUSIONS

Unknown Element

Correlation Between Strain and Metadata
